

PORTFOLIO

Our Portfolio & Precious Moment With Clients

INTRODUCTION

Railtro born out of our extensive business experience in the Global Trading, Rolling stock and signalling for Railways and Metros, Power generation and electric-electronics markets across India. With more then the 16years of experience and dynamic team with a healthy mix of youth and experience our principle business goals is to bring total excellence in our quality standard which has assisted us in manufacturing and supply of premium quality parts/ equipment's according to customized requirement of our client.

We believe in bringing the best & latest technology into India through Research and Global collaborations. We are internationally renowned for the high quality of our products, Manufacturing, Services and systems, exporting to over 14 countries in World. Our reputation is strengthened by our excellent service, continual innovation and the breadth of our productrange.

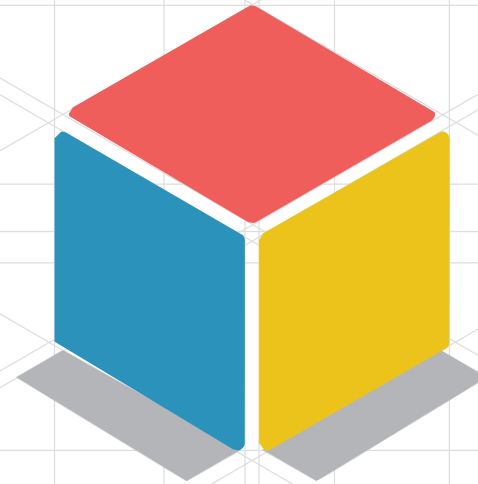

We have experienced a strong growth in production and sales and continue to invest in new markets to meet the needs of ourcustomers.

vision

Become the number one solution for India Automation Industries and digital community development in digital age

mission

Develops the competency of the crew of Railtro shares ideas through training and tutorials; and provides marketplace to stimulate Reliable products development

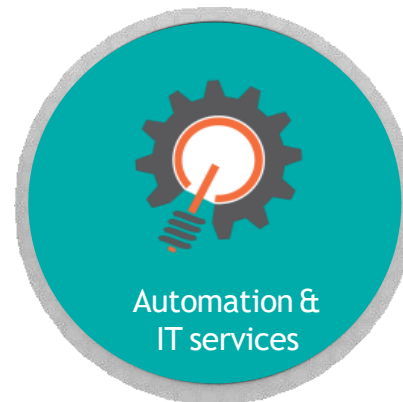

value

Through teamwork, integrity, open-mindedness and collaboration, Railtro sets up a situation where creativity can grow along with ideas

THE MAIN SERVICE WE OFFER

Our best services forever

Infrastructure

We take pride in owning a advanced manufacturing facility that helps us to offer quality electrical & mechanical solutions that covers designing, supplying, installation, testing and commissioning of Electrical & mechanical projects. The robust infrastructure facility incorporates a manufacturing unit, a research and development wing, a quality testing facility and a spacious warehousing unit. The facility is equipped with modern machine shop and tool room that make the manufacturing process highly reliable and authentic.

Further, the facility is supported by design unit with CAD and CAM facility. It allows us to design our products with innovative approach and as per the specifications detailed by our clients.

Power Savings

Automation

Made for You.

Railtro is one of the leading producers of control panels, and energy saving products for both domestic and industrial applications. Our comprehensive range of products control, produce and save energy in the home, in business and within industry. Service excellence and the high quality of our products and systems have earned us an international reputation that is widely recognized and almost unique.

Our international reputation is supported by our long-standing technical expertise, our constant search for new solutions, our developments in the automation technology

We believe our role is to become your key partner in the provision of truly effective and efficient solutions.

ENERGY PRODUCTION

Steam Turbines

With our rich industry experience, we are involved in offering an extensive range of Steam Turbines. The offered products are manufactured using optimum quality raw material, which is procured from reliable vendors of the industry. Furthermore, these are available for our clients in various sizes, shapes, designs and other related specifications. Clients can avail these turbines from us at the most competitive prices.

Extraction Cum Condensing Turbines

Extraction Cum Back Pressure Turbines

Back Pressure Turbines

Straight Condensing Turbines

Alternator

Used Steam Turbine

Micro Steam Turbines

Heat Exchanger Turbine

Spare Parts

Turbine Rotor- Impulse and Reaction Stage

Valve Parts

Turbine Control panels

Turbine Rotor

ENERGY CONTROLS

We are one of the recognized names in the industry for designing, keeping in mind the specific requirements of the clients, and providing an array of Electrical Panels some of which are listed below. These panels are made of good quality materials in accordance with industrial quality standards. These find their application in commercial buildings, hospitals, industries, dairies, telecommunications, research laboratories etc.

LT & HT Panels

Power Distribution Panel PF

Correction Panel AMF

Panels

MCC & PCC Panels

Energy Saver

VFD Panels

MLDB, ELDB, ACDB, DCDB, PDB

Temperature & Pressure controls panels

Synchronizing panel Turbine

supervisory panel Relay

Metering panel DC Motor

starter Panel DC System

LAVT panel

NGT panel

AVR panel

Battery Bank

Grid transformer C&R panel

AUTOMATION

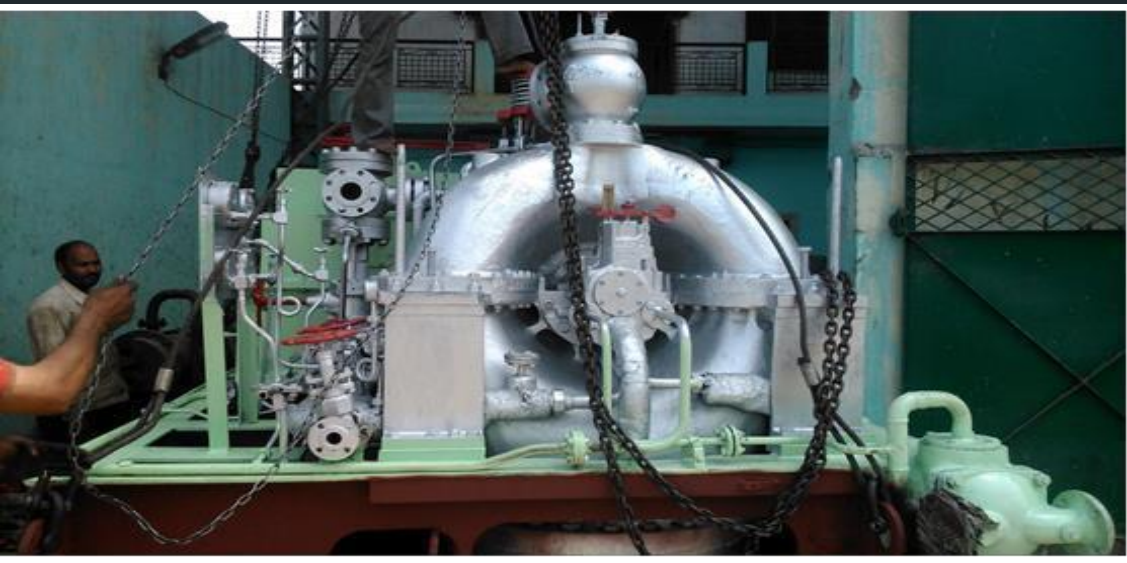

Railtro Automation offers a full range of machine control solutions, repair & maintenance of machine tools & machines (all types of CNC and conventional machines Indian and imported). Energy savers from cost-effective components to highly integrated systems. Each of these easily implemented solutions help you speed time to market and lower total cost to design, develop and deliver your machine
